TECHNICAL SKILLS

FRONTEND

React.js | JavaScript (ES6+) | Tailwind CSS | HTML5 | CSS3

BACKEND & DATABASE

Node.js | Express.js | MongoDB | JWT Auth | RESTful APIs

TOOLS & DEPLOYMENT

Git | GitHub | Netlify | Vercel | Render | Postman

EDUCATION

B.Tech - Computer Science
Maharshi Dayanand University (MDU)
Currently Pursuing

Higher Secondary (12th Pass)
Haryana Board (HBSE)
Completed

KEY STRENGTHS

- Quick Learner & Adaptable
- Problem Solving & Debugging
- Full-Stack Product Thinking
- Clean Code & Modular UI
- Version Control & Team PRs

DEEPAK.

MERN STACK DEVELOPER — 5 Months Hands-on Live Experience

PROFESSIONAL SUMMARY

Proactive and results-driven **MERN Stack Developer** with **5 months of hands-on internship experience** developing scalable web applications on live client projects. Experienced in architecting responsive, accessible UIs with **React.js & Tailwind CSS**, engineering secure REST APIs using **Node.js, Express.js, & MongoDB**, and managing collaborative version control workflows via **Git & GitHub**. Passionate about clean modular code, performance optimization, and modern web UX.

INTERNSHIP EXPERIENCE

MERN Stack Web Developer Intern • Live Production Projects — 5 Months Duration

- Developed reusable, responsive UI components using React.js and Tailwind CSS for production web applications.
- Engineered and integrated RESTful APIs, managed asynchronous state, and implemented JWT-based user authentication.
- Collaborated with team members using Git & GitHub for branch management, code reviews, and resolving production issues.
- Optimized front-end rendering performance and assets, ensuring mobile-first responsiveness and high user satisfaction.

FEATURED PROJECTS

CabExpress — On-Demand Cab Booking

MERN Stack (MongoDB, Express, React, Node) | Live Demo | GitHub

- Built a full-stack on-demand cab booking platform featuring dedicated portals for Passengers and Drivers.
- Engineered REST APIs for ride requests, real-time fare calculation, route scheduling, and secured endpoints using JWT and MongoDB.

CirKIX Website

React.js, Tailwind CSS, Motion Animations | Live Demo | GitHub

- Developed an interactive, modern brand website with fluid micro-interactions, scroll-driven motion, and dark/light UI aesthetics.
- Architected modular component structure with asset optimization to guarantee 60fps animations and full cross-device responsiveness.

FreshEat — Food Ordering / E-Commerce

React.js, Tailwind CSS, Context API | Live Demo | GitHub

- Engineered an e-commerce food ordering app with dynamic category filtering, instant search, cart management, and price calculation.
- Implemented client-side state persistence, structured reusable UI components, and built a streamlined mobile-first checkout flow.

Personal Developer Portfolio

React.js, Tailwind CSS | Live Demo | GitHub

- Designed and deployed a modern personal portfolio showcasing full-stack projects, core competencies, and direct contact options.
- Crafted with high-performance component practices, fast load times, accessibility standards, and responsive cross-browser layouts.
